**SUBJECT : CALL FOR SURVEY ON TRAINING AND WORKSHOP FOR
RADIO BROADCASTING IN PARTNERSHIP WITH THE
POLYTECHNIC UNIVERSITY OF THE PHILIPPINES**

Greetings of Peace and Solidarity from PHILRECA!

PHILRECA is currently conducting a survey relative to the possible partnership with one of the country's top universities- The Polytechnic University of the Philippines.

In line with the EC sector's goal to be globally competitive, keep up with technological advancements in the power industry, and empower our member-consumer-owners by conducting effective information-education-campaign (IEC) initiatives, we are conducting this survey to check the needs of our Electric Cooperatives to aide them in establishing, and maintaining their very own EC Radio Stations.

From there, our sector can further plan, discuss, and formulate a Training Design that would be fit on the needs of our target participants.

We would appreciate it if you could complete the survey through the google form link below **not later than March 24, 2023, Friday**:
