SUBJECT : CALL FOR SURVEY ON VARIOUS TOPICS

Greetings of Peace and Solidarity from PHILRECA!

PHILRECA is actively expanding its research and data repository to enhance its capabilities for future initiatives. As part of this effort, we are set to conduct a comprehensive survey focusing on Renewable Energy (RE) Initiatives, Status on the Implementation of Open Access Transmission Service Rules (OATS Rules) 2022 Edition, Module F - Adoption of the System Peak Demand (SPD) Billing Methodology, the EC Founding Anniversary & AGMA, the Status of Pole Relocation Projects, and the EC Personnel.

In line with this, we would like to request all the electric cooperatives to fill in the survey form/template (different link for every topic) and provide the following:

1. Renewable Energy (RE) Initiatives:

- Type of Renewable Energy (RE) Technology, including Subtype;
- Installed/Dependable/Expected Capacity;
- Current/Designated Site Location of RE Facility;
- Relevant Dates (Commissioned/Construction/Completion); and
- Challenges

PHILRECA

PHILIPPINE RURAL ELECTRIC COOPERATIVES ASSOCIATION, INC.
— The Philippines' Electric Cooperatives —

A resolution by the Energy Regulatory Commission (ERC) that revised the billing determinant for load customers based on the system peak demand (SPD) instead of the non-coincident peak (NCP).

NGCP's motions (June 24 and July 8, 2022):

The National Grid Corporation of the Philippines (NGCP) filed a motion for partial reconsideration and a supplemental motion to defer the implementation of Module F of the OATS Rules 2022 Edition, citing technical and operational issues.

ERC's order (May 24, 2023):

The ERC ordered NGCP to immediately implement the entire provisions of the OATS Rules 2022 Edition and to calculate and refund the overcharges to the affected transmission customers.

3. EC Founding Anniversary & AGMA:

- Date of Incorporation
- Date of EC 50th Anniversary Celebration in 2024
